(b)(3)

I am enclosing herewith two copies of a report "Further Attempts to Block the LSD Reaction by Pretreatment with BOL."

You will note that we did finally attain significant blockade in these patients by pretreatment with 1 mg. of BOL three times daily for five days. I see no great practical significance in this fact, but it may have important theoretical implications.

I will arrive in Washington via C. & C. Railway about 8:45 a.m. on February 5th. I am looking forward to seeing you that day.

Very sincerely yours,

Harris Isbell
